

## Marine Grade 400 Watt Wind Turbine

**Generates continuous power day and night.  
Great for power failures, remote and backup power!**

- 24 Hours of Power generation in your backyard, farm or cottage!
- Simple, affordable and environmentally friendly
- Industrial strength cast aluminum body safe for wind speeds up to 110 mph
- High quality powder coated for marine protection and durability to be used in the most versatile environments, land or sea! No other wind turbine offers this as a standard feature
- Carbon Fiber Blades ensure low noise, little disturbance and maximum performance
- Low start-up speed of 7 MPH
- External MPPT Controller with LCD output power display

### Dimension Diagrams

### Specifications

Voltage:	12 and 24 VDC
Max Rated Power:	400 Watts at 28mph (12.5 m/s)
Start up Wind Speed:	7 MPH
Survival Wind Speed:	110 MPH
Blades:	Carbon Fiber Composite
Body:	Cast Aluminum with Marine Powder Coating
Magnetic Material:	NdFeB (Neodymium Ion Boron)
External Controller:	Microprocessor-based smart external regulator with peak power trackin

### Shipping Details

Item Number:	70500
UPC code:	839290007068
Country of Origin:	China
Shipping Dimensions:	26.5x13.8x8.3"
Shipping Weight:	17.4 lbs
Master Quantity:	1
Master Dimensions:	26x14x7"
Master Weight:	17.4 lbs
Pallet Quantity:	60

Mounting NOT included
